RootTrace — Trait Quality Report

Independent prototype · synthetic-data demonstration · review flags are not diagnoses

3 plants

36 observations

4 flagged frames

Events to review

Plant	Frame	Rule	Explanation
canola-demo-02	7	abrupt_primary_length_change	Primary length changed 62.5% vs preceding frame (threshold 35.0%).
canola-demo-02	7	local_robust_outlier	Length is >6 robust standard deviations from recent-frame median.
canola-demo-02	8	abrupt_primary_length_change	Primary length changed 35.4% vs preceding frame (threshold 35.0%).
canola-demo-03	9	lateral_count_change	Lateral count changed by 5 roots (threshold 4).
canola-demo-03	10	lateral_count_change	Lateral count changed by 5 roots (threshold 4).
